

Job Title: UI/UX Developer

Location: Remote

Job Summary:

We are seeking a talented UI/UX Developer to join our dynamic team. The ideal candidate will be responsible for designing and implementing user interfaces and experiences for our web applications. You will work closely with our design and development teams to create intuitive, user-friendly designs.

Responsibilities:

Design and develop user interfaces for web applications.
Create wireframes, prototypes, and high-fidelity designs.
Collaborate with product managers, designers, and developers.
Conduct user research and usability testing.
Optimize designs for various devices and screen sizes.
Implement and maintain design systems and style guides.
Stay updated with the latest UI/UX trends and technologies.

Requirements:

Bachelor's degree in Design, Computer Science, or a related field.
Proven experience as a UI/UX Developer or similar role.
Proficiency in design tools like Adobe XD, Sketch, Figma.
Strong knowledge of HTML, CSS, JavaScript.
Experience with responsive and adaptive design.
Excellent communication and teamwork skills.
Portfolio showcasing previous UI/UX projects.

Preferred Qualifications:

Experience with front-end frameworks such as React or Angular.
Knowledge of version control systems like Git.
Understanding of accessibility standards
