

## **Full job description**

### **About Us:**

Credmarg technologies pvt ltd i is a leading innovator in fintech committed to delivering cutting-edge solutions that drive success and growth for our clients. We are seeking a highly skilled and motivated Java and TypeScript Developer to join our dynamic development team.

### **Job Overview:**

The Java and TypeScript Developer will be responsible for designing, developing, and maintaining high-performance, scalable applications using Java for back-end and TypeScript for front-end development. The ideal candidate will have a strong background in both languages and be capable of working in a fast-paced, collaborative environment.

### **Key Responsibilities:**

- Design, develop, and maintain robust and scalable back-end services using Java.
- Develop responsive and user-friendly front-end interfaces using TypeScript and modern frameworks such as Angular or React.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Optimize applications for maximum speed and scalability.
- Write clean, maintainable, and efficient code.
- Conduct code reviews and provide constructive feedback to team members.
- Troubleshoot, debug, and upgrade existing software.
- Stay up-to-date with emerging technologies and industry trends.

### **Qualifications:**

- Bachelor's degree in Computer Science, Engineering, or a related field, or equivalent experience.
- 3+ years of professional experience in Java development.
- 2+ years of professional experience in TypeScript development.
- Proficiency with modern Java frameworks such as Spring Boot.
- Experience with front-end frameworks like Angular, React, or Vue.js.
- Strong understanding of RESTful APIs and web services.
- Knowledge of database systems such as SQL, NoSQL, and ORM technologies.
- Familiarity with version control systems, particularly Git.
- Excellent problem-solving skills and attention to detail.

- Strong communication and teamwork abilities.

**Preferred Qualifications:**

- Experience with containerization and orchestration tools like Docker and Kubernetes.
- Familiarity with cloud platforms such as AWS, Azure, or Google Cloud.
- Understanding of Agile/Scrum methodologies.
- Knowledge of CI/CD pipelines and tools such as Jenkins or GitLab CI.

**What We Offer:**

- Competitive salary and benefits package.
- Opportunities for professional growth and development.
- A collaborative and inclusive work environment.
- Flexible work hours and remote work options.
- Health, dental, and vision insurance.
- Generous paid time off and company holidays.

**How to Apply:**

Interested candidates are invited to submit their resume and a cover letter detailing their relevant experience and why they are a great fit for this position. Please send your application to [vishal@kilope.com](mailto:vishal@kilope.com) with the subject line "Java and TypeScript Developer Application"
