

Software Tester

Job Title: Software Tester

Location: Austin, TX

Company: QualityTech Solutions

Job Description: QualityTech Solutions is looking for a meticulous Software Tester to join our team. The ideal candidate will be responsible for ensuring the quality and functionality of our software products. You will be involved in the entire testing lifecycle, from planning and execution to reporting and retesting.

Responsibilities:

- Develop and execute test plans and test cases for software applications.
- Identify, document, and track software defects and inconsistencies.
- Perform functional, regression, and performance testing.
- Collaborate with developers to understand features and create effective test strategies.
- Automate repetitive testing tasks using tools like Selenium or JUnit.
- Report on testing progress and results to the project team.

Requirements:

- Bachelor's degree in Computer Science, Information Technology, or a related field.
- At least 3 years of experience in software testing.
- Proficiency in testing tools and frameworks (Selenium, JUnit, TestNG).
- Experience with bug tracking systems (JIRA, Bugzilla).
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.

Preferred Qualifications:

- Experience with Agile development methodologies.
- Knowledge of programming languages such as Java or Python.
- Certification in software testing (ISTQB, CSTE).
